Branches of world's major steel companies include stainless steel products from green sheets to SORISO Tiles. To provide Right and Sure Value and Good Tiles with international quality management system has been chosen by the company. To produce the products in domestic and international markets one of them being national premium products when we are doing it.

Located in world, the company has state of the art manufacturing plant with the production capacity is 16500 sq. mtr. per day of glazed porcelain floor tiles. SORISO produces the technological advancement with the technical excellence from SICMI, Italy with environment friendly and energy efficient production.

The Group 32 Series is manufactured by innovative tile technology has very high breaking strength to withstand any type of heavy loads and high abrasion resistance. Features of innovative design with non-slippery, full water proof and scratch proof specifications add value to the aesthetic appearance of porcelain tiles.

Needless to say that SORISO is the first choice of top architects and interior designers. A SORISO Tiles we cherish the values of Trust, Quality and Reliability to make your own home experience the life-time success (investor's satisfaction) from the greatest choice (best looking) floor tiles.
